AVerMedia is selected for Retail Store in Slovenia

Taipei, Taiwan, September 02, 2009-Harvey Norman is a famous retail chain in Electronics, Computers, Furniture and bedding in worldwide. Harvey Norman, from Australia is a leading household name in Singapore and has a prominent international presence with over 215 stores in Australia, New Zealand, Ireland, Slovenia and Malaysia.

For protecting the safety of new opening retail store in Slovenia, the store owner chooses **AVerDiGi EH5116 Pro**, the 16CH Embedded Hybrid DVR with rack ears. EH5116 Pro allows users to randomly assign either IP or Analog cameras in these 16 channels based on users' demand. Simultaneously, it also supports up to 5 MegaPixel IP cameras for surveillance need. "With Intelligent GUI design, it takes only a minute more to learn and navigate it intuitively. As what security guard concern of, it really saves the training time and cost to operate it," said Harvey Norman, Slovenia branch owner.

Furthermore, for guaranteeing absolute safety of every corner of convenience stores, the owner also adopts 150 pieces **AVerDiGi SF1301** Megapixel IP cameras for providing higher resolution video for surveillance need. **SF1301** not only offers up to 1.3 megapixel (1280x1024) resolution, but also supports 30 fps recording frame rate and "4" video streams simultaneously with combinations of M-JPEG and MPEG4 video formats. "The picture quality is amazing, and it's helpful when we want to check image details," said the store owner. "This achievement once again proved AVerMedia's continuous effort for surveillance market," said Kelvin Chang, AVerMedia's Sales Manager.
