

AVerMedia Protects the Safety of Vietnam Banks

Taipei, Taiwan, February 02, 2010- AVerMedia®

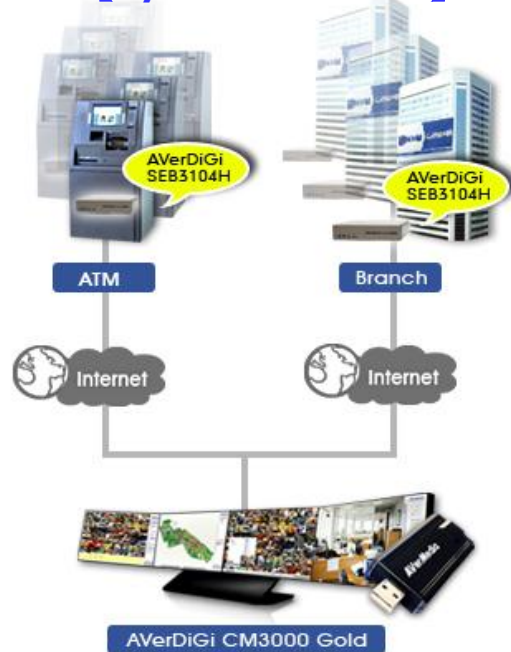

Information, Inc., the leading provider of award winning surveillance technology, announced that Vietnam Maritime Commercial Joint Stock Bank (Maritime Bank) has chosen AVerDiGi SEB3104H, a 4 channel H.264 D1 real-time

recording DVR to protect its branches and ATM locations from robbery and vandalism.

Maritime Bank, established on 8th June 1991, is one of the first joint stock commercial banks in Vietnam. With more than 18 years of experiences, Maritime Bank has become a top-tier powerful lender in the country.

[System Structure]

AVerDiGi SEB3104H, placed at each Maritime Bank's ATM and branch, can support up to 120/100fps D1 real-time recording, and provides high-resolution images along with H.264 compression technology which offers efficient HDD usage. Each channel's frame rate of SEB3104H can be adjusted individually. Security director at each branch would base on its bandwidth availability to pre-set the video resolution in order to save on the transmit time. Besides, the video surveillance data could be searched by date/time/visual image via local playback in each branch.

Furthermore, combining with Central Management System (AVerDiGi CM3000/CM3000 Gold), Head Office has been able to spot each accident from pre-loaded DVR locations immediately through blinks on E-map. Moreover, security director in CMS station would be able to sufficiently retrieve local recorded surveillance data when incidence had occurred through keyword from central storage server. The function of double storage at the CMS station and local DVRs has fulfilled the requirements by the bank that in case either one of the hard disk crashed or ATM breakthrough, the bank would still have additional backup for, for example, police investigation.

— About AVerMedia INFORMATION, Inc.

AVerMedia INFORMATION, Inc. is the technology leader in surveillance and presentation technology. Aside from its full line of digital surveillance recorder products, AVerMedia provides Embedded Hybrid DVR, NVR, Megapixel IP cam, Surveillance Software, Accessories and Peripherals for customer and surveillance market. Keeping the spirit of "Distinct people, Distinct needs - Outstanding Solutions," AVerMedia not only provides you with the fullest coverage of security protection, but also takes video surveillance to the new heights.
