Regional Government of Education in Trencin County, Slovakia Relies on AVerMedia INFORMATION Inc. for Integrated Security

Taipei, Taiwan, July 7, 2010- As government officials and county residents cherish for the grand opening of Trencin County Education Department, the real challenge was hindered behind the curtain as the security of government buildings being the #1 concern around the global.

AVerMedia supplied an integrated system that centralizes surveillance cameras and footages throughout the facilities, and ease the burden of security operation for the County Education Department. AVerMedia total surveillance solution allows Trencin County Education Department to easily control and better manage county employees, visitors, and government officials' safety.

The County Department has selected AVerDiGi SA6416E embedded hybrid DVRs to help track all 78 cameras' feeds from the gates, hallways, offices, counters, to parking lots. Separated from secured DVRs storage room is the Central Management Control Room where AVerDiGi Central Management System- CM3000 integrated all surveillance video, from DVRs, to a 4 individual display monitors. The advantage of this application allows security guards to better manage the floors by using functions such as E-map for pinpointing unusual movements, 2x2, 3x3, 4x4, 5x5, 6x6, 7x7, 8x8, up to 64 cameras on one screen, local and remote playback with multiple search modes, and live video streaming with different monitoring authoritative level access on different monitors.

The security decision made by the county to AVerDiGi SA6416E standalone DVR was focusing on the stability of the system to withstand 24/7 monitoring and limited security budget. AVerMedia's AverDiGi SA6416E is honored not only with HD IP cameras input supports and optimizes video output up to 1920x1200 display resolution that provide magnificent image quality , but also the hybrid feature for possible expansion in the future.
